MEMORANDUM FOR: The Honorable Brooks Hays  
 Special Assistant to the President  
 The White House

1. I found Mr. Lyman's paper, "The Church, the U. S. and the  
 'Opening to the Left'", very interesting and I share the aspirations  
 it expresses. Please thank Dr. Steelman for suggesting it be brought  
 to my attention.

2. Actually, his useful recommendation with respect to  
 Vatican information has been very much in my thoughts for some time  
 now. Mr. Lyman also suggests that CIA might consider the establish-  
 ment of a new unit to enlist the cooperation of the moral forces of  
 the world. I believe this type of operation, were it to be estab-  
 lished, would be more appropriately lodged in the Department of State  
 than in the CIA.
